

Media Consent Form

General Guidance

When creating media (photographs, filming or audio recording), it is important to ensure you obtain previous consent from any people (subjects) who feature within the media, in accordance with Regulation (EU) 2016/679 (EU General Data Privacy Regulation (GDPR)). This ensures that both the people featured in the media and the person producing the media are aware of what the media will be used for, how long it will be kept for and how they are protected by the aforementioned Regulation. Hence, you must ask people who feature within your media to complete this form and submit it previous to sharing the media or together with your media. **Any submitted media not preceded or accompanied by this form will be immediately deleted by the recipient.**

To be completed by Foundation for Environmental Education (hereinafter 'FEE') representative:

Event description:

Name of FEE representative:

Date:
